The Senior Boys' Basketball team have yet to be beaten so far this season. Coached by Mr. Aitken, they hope to achieve a position in the playoffs. The key to a championship team is defense. One member of the team who deserves mention is Mitchell Borrow, the Panther's mainstay of defense against potential threats. In solid defense and consistent offense, lies the Panther's hope in capturing the City Championship. The Bantam Boys' Basketball team was coached by Mr. MacEwen. Unbeaten so far in the season, they too, stand an excellent chance of grasping their division title if not the League Championship. Wagar's Senior Girls' Basketball team did not have as successful a season as the Boys' teams. However, with much effort and sheer determination, they have managed to break a four year losing streak.

The 1978 TRACK AND FIELD TEAM was enormous and a great success. Students of all grades participated. Although the season has yet to officially begin, several meets have already been held in which the promising Wagar team placed second and third. New school records have been set, and most likely, more will be broken and replaced before long. A most notable record is that set by Scott MacLean who won the City Cross-Country Championship. By doing so, he became the first Wagar student to achieve this great honour.

After many years of irregular (if any) activities, this year's sport schedule has finally settled down. In events which Wagar has not participated in for four years, there now are contending teams.

Miss Stelzer, Wagar's new Phys. Ed. teacher who replaced Miss Painter, is the coach of the Gymnastic Team. In their first meet of the season, this team placed fifth overall and T. Hamburg finished first in the uneven bars. To them, we wish the best of luck.

The GIRLS' BADMINTON TEAM, under the coaching of Miss Painter and Miss Taylor, did fairly well. Classes one and two were inexperienced (not having ever played before), but still managed to secure a total of three wins. Having the benefits of prior experience, classes three and four fared considerably better with a combined total of seven wins.

The Boys' Soccer Team, coached by Mr. Ioannou, competed in league play after a long absence. Although the boys had a winless season, the experience gained was invaluable.

Reflecting on this past year, the students of Wagar have shown a tremendous renewal of interest in school activities, especially in sports. It is our hope that this trend of increased participation will continue in the future.
