

I trust that you, the students of Wagar High School, have enjoyed an enriching experience this year. While our primary goal has been to provide you with learning opportunities that foster your academic development, we have also focused on nurturing values and competencies that will benefit you both now and in the future. Respect, self-discipline, critical thinking, honesty and co-operation, whether learned in the classroom, in the hallways or in extra-curricular activities are values for life. They must continue to develop and become permanently etched in your character.

To the graduates, I extend my congratulations and sincere good wishes. Your years at Wagar have afforded you an opportunity to develop your work ethic and your human spirit. You are citizens of the world, one that is as diverse and enriching as Wagar, only larger. As graduates, you have achieved another rung on the ladder of success. Continue your journey but be prepared for challenges. However difficult, meet the challenges that lie ahead with integrity, compassion and dignity. Be committed to these qualities, they can guide you on your voyage to greater success. We wish you well!

On behalf of all students, I extend a sincere thank you to your teachers, the support personnel and the administration for the support and encouragement they have provided. They share in your success always!

VICE PRINCIPAL

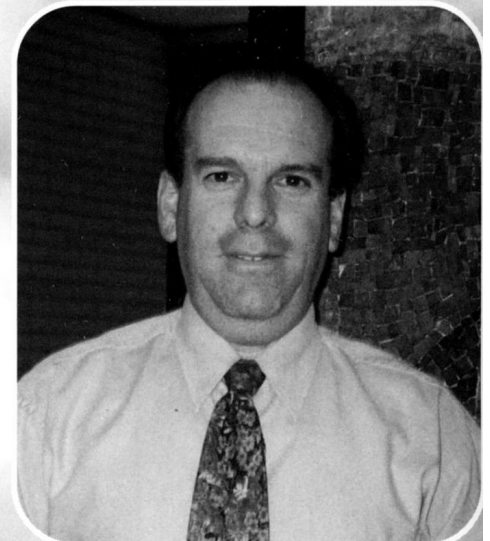

Dear Graduate,

Graduation from high school is often one of the first major accomplishments in a young person's life. Although a struggle for some and a significant challenge for most, you, through commitment, diligence and a want to succeed, have earned the privilege to wear a cap and gown. I am sure that many of you had doubts from time to time as to whether this day would ever arrive but it has and as with so many things in life the goal often realized with small steps.

William Osler, a distinguished Montreal physician of the 19th century wrote;

“Think not of the amount to be accomplished, the difficulties to be overcome, but set earnestly at the little task at your elbow, letting that be sufficient for the day; for surely our plain duty is “not to see what lies dimly at distance, but to do what lies clearly at hand.”

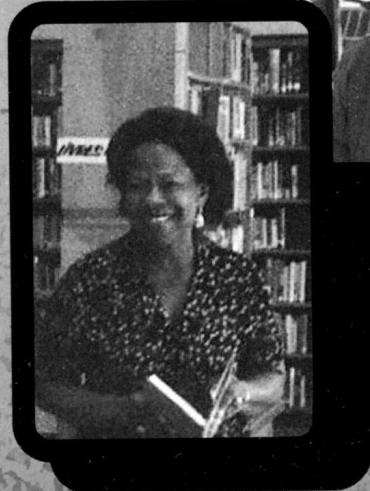

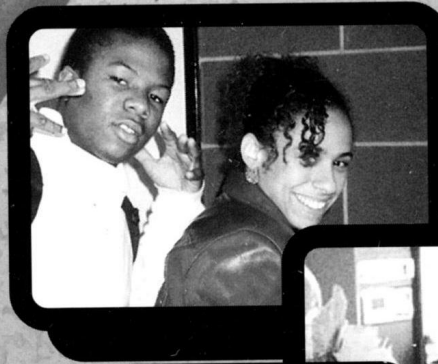

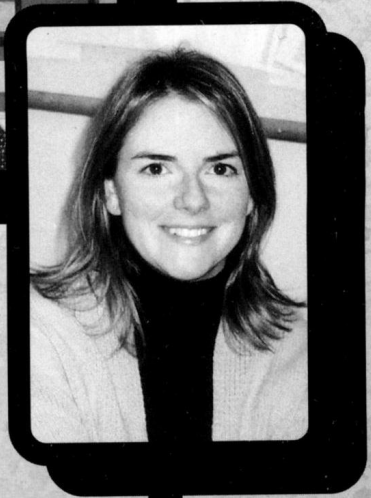

My very best wishes for all your noble future endeavors.

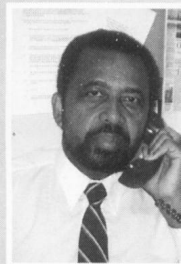

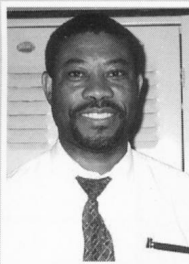

MR. CRISTOFARO
