Principal's Message

Your graduation, far from being an end, is the beginning of all your tomorrows. Over the past several years you have worked and studied, practiced and played and grown - grown mentally as well as physically. Now you are graduating and you will begin your lives as members of the adult community.

Some day soon you graduates will be lawyers, computer analysts, fashion designers, business people and teachers, and you will be those things because of the teachers and classmates you have met, the friends you have made, the people who have come in to your homes and the language and ideas you have heard expressed. Each of you is a reflection of the society which surrounds you and I do hope our contribution as a school and a society will assist you in being what you want to be.

Finally, I hope you leave Wagar High with a respect for your neighbors and a respect for yourselves.
